About the Conference:

The *1st International Artistic and Scientific Conference Persons with Disabilities in Arts, Science and Education* will be held in Osijek on 5-6 December 2019, on the occasion of the observance of the International Day of Persons with Disabilities.

The conference held under the high patronage of the Ministry for Demography, Family, Youth and Social Policy is organized by the Academy of Arts and Culture in Osijek in co-organization with the Academy of Medical Sciences - Branch of Osijek, the Faculty of Educational Sciences and The Faculty of Teacher Education, University of Zagreb. The main aim of the conference is to establish a dialogue between experts who are engaged in the issues concerning the participation, inclusiveness, accessibility and realization of the rights of persons with disabilities in relation to various aspects of participating in artistic and cultural programmes and the questions of the integration of persons with disabilities in arts, science and educational system on every level. The goals we would like to accomplish with the conference refer to the further development of inclusion of persons with disabilities in every artistic, cultural, educational and social aspects of life, to discarding stereotypes about persons with disabilities as well as to the realization of the rights of persons with disabilities. By presenting achievements and acknowledging persons with disabilities in arts, science and education the conference will contribute not only to the local but also to the national and broader regional community.

The conference is intended for academics, artists, teaching staff and all the others who interact or are engaged in the issues of persons with disabilities, according to the themes of the conference, either in arts, cultural events, science or vertical teaching and education. It is also intended for persons with disabilities who deal with academic or artistic work or are participants in the educational system and they want to present their work or experiences to the public.

The specific aims of this project have been set in order to encourage artists, academics and teaching experts to make their contribution to the realization of (the rights of) persons with disabilities through scholarly papers, good practice displays or workshops by emphasizing the promotion of human rights and non-discrimination as well as taking actions to remove psychological, educational, familial, cultural and other obstacles in order to ensure complete integration and participation of persons with disabilities in artistic, social and cultural aspects of life under equal terms.

Conference topics:

- Inclusion of persons with disabilities in arts, science and education
- Stereotypes, prejudices, discrimination of persons with disabilities
- Free time of persons with disabilities
- Persons with disabilities in the context of art therapies
- Socio-legal issues of persons with disabilities
