

MISSION

Our **MISSION** is promotion of higher education values on the trail of European artistic and humanistic traditions through implementation of quality art, science and interdisciplinary study programmes, while preserving and presenting cultural, artistic and regional particularities as well as creating stimulating environment for personal affirmation of students, teachers and all employees alike.

VISION

Our **VISION** is to become a leading regional higher education institution in the field of artistic practice and theory, cultural studies and creative industries through development of general and specific skills and competencies of students that will enable them to partake in the labour market and prepare them for an active roll in the development of creative and tolerant society.
